

PURDUE ONLINE

CERTIFIED REGISTERED CENTRAL SERVICE TECHNICIAN EXTERNSHIP PROGRAM

A HANDS-ON LEARNING EXPERIENCE THAT MEETS IAHCSSM'S 400-HOUR REQUIREMENT

DELIVERY: On-Site Externship

CONTACT HOURS: 400

START: Open Enrollment

FEE: \$300

Central Service Technicians are on the front lines when it comes to preventing infection and ensuring patient safety. Their role in sterilization of instruments and devices is a vital responsibility in hospitals and other healthcare facilities.

IN A HIGH-DEMAND FIELD

Because of their key role, Central Service Technicians have almost endless career opportunities. Trained and certified employees are needed in hospitals and clinics, surgery, ambulatory and outpatient centers, dentist offices, and more. Demand routinely outstrips supply.

WHERE CERTIFICATION COUNTS

IAHCSSM Certified Registered Central Service Technician (CRCST) certification is the gold standard. It helps Central Service Technicians demonstrate that they possess the essential knowledge and skills necessary for managing critical duties safely, effectively, and consistently. It also ensures that they remain current with evolving instrumentation, technology, standards, and best practices.

EXAM PREPARATION RESOURCES

In partnership with Purdue University, individuals can take advantage of an online self-study course designed to prepare them for the IAHCSSM CRCST exam, leading to certification.

DEDICATED SUPPORT

CBET provides personal live support throughout your program, including the required externship.

AN EXTERNSHIP NEAR YOU

To obtain your certification, a 400-hour externship is required. CBET will work with our large network to place you in an externship site convenient for you, where you will work with a qualified externship supervisor.
